

## Environmental Policy

Chalfont Electrical Services Ltd recognises that through our activities and services we have a potential to have an impact on the environment; consequently, we seek to minimise or prevent any harmful environmental effects that result from our activities wherever and whenever they should occur.

Chalfont Electrical Services Ltd is committed to delivering a quality service to its customers, as part of this process, the management of our environmental aspects is as important as the management of all other aspects of the business. We seek to develop a sustainable environmental improvement programme with the assessment and measurement of our environmental impacts being the driver for setting clear, achievable, environmental improvement objectives in each area of the companies activities.

Chalfont Electrical Services Ltd is committed to reducing or preventing pollution and will minimise, as far as possible, any negative environmental effects that may occur as a result of our activities. As part of our commitment to a programme of continual improvement, we will develop and implement an environmental management system.

As part of our commitment to continual improvement, we will:

- Meet, and where appropriate, exceed all relevant legislative, industry and other relevant standards.
- By intruding a system of re-use rather than disposal and the promotion of recycling and the use of recyclable materials, we aim to reduce our consumption of materials.
- Reduce, as far as possible, our use on non-renewable energy resources and develop an energy efficiency program.
- Reduce, wherever practicable, our level of harmful emissions.
- Reduce, as far as possible, the visual and noise impacts of our activities.
- Include environmental issues as an agenda item on all company, discipline and main board meetings.
- Develop environmental awareness and sound environmental practices amongst all Chalfont Electrical Services Ltd employees by the provision of formal and informal training.

This policy shall be reviewed annually for adequacy.
